Watch for Mr. Rabbitt Pupils and friends of Professor W. H. Rabbitt, who is about to retire.

from the faculty of Oahu College, yesterday presented the popular young instructor, athlete and society man with a beautiful gold hunting-case watch and guard. The inscription is the college yell: Oahu-oo, Oahu-oo, Punahou, Punahou, mau-a-mau! Professor Rabbitt is, quite naturally, much pleased with the token of friendship and regard. He, as has been stated, leaves the college to enter business life in the city.

## An Estimable Woman Dead.

Mrs. F. Wilhelm, wife of the well-known contractor, architect and builder, died at 6:50 o'clock last evening at the family home, on Keeaumoku street. Mrs. Wilhelm had been ailing for some time. She was forty-four years of age, and leaves one daughter. Mrs. Wilhelm was a Hawaiian lady of the rarest qualities, and her acquaintance was held in the highest value by all who had the privilege of knowing her. Mrs. Wilhelm was ever thoughtful of the welfare and comfort of others, and ever ready and willing to assist all whom she believed might be in distress. The bereaved husband and daughter have the most earnest sympathy of their wide circle of friends. The funeral will be held on Sunday afternoon.

## OLAA SEED CANE

Planting Is In Progress on the Place Already.

Encouraging Figures—Laborers' Outlets—Ploughing 's Easy—First Crop 6,000 Acres.

HILLO, June 8.—Hawaii Herald: E. A. Horan, who is in charge of the planting interests in Olaa for the present, came down to Hillo on Tuesday on business connected with the company. "At present we are planting seed in the cleared fields formerly planted in coffee. We have about 100 acres planted now, and will increase this to 500 as rapidly as possible. We have 200 acres now ready for the cane. The clearing thus far done is only in a general way, and no great amount of this kind of work will be done until the manager is appointed.

"Carpenters have erected laborers' quarters at Mountain View, where 200 can be accommodated, and another house will be built at eleven miles. The soil up there is so light that we are plowing fields with six-inch plows and using only a single horse. Where the twelve-inch breaking plow is used a single span of mules can do the work with ease. Just as fast as the ground can be plowed it will be planted, and it is expected that not less than 6000 acres will be planted for the first crop.

"There are big gangs of Japanese on the plantation clearing the land, and in many places rooting up the coffee trees. Four-mule teams are hauling seed cane from below, and this is being planted as rapidly as possible, and Contractor James is engaged with other carpenters erecting such buildings as are needed at present. A great many acres have been planted in seed cane, and in nine months this will be ready to cut and plant, and eighteen months afterwards it will be ready to crop. This means that in twenty-seven months Olaa will be ready to take off the first crop.

"Nothing can be done regarding the selection of a mill site until a manager is appointed.

"I have not heard of any one selling their paid-up stock at par; in the main the people who hold it do so as an investment and not for speculative purposes."

## AT A RARE TREAT

Popularity of the Recitalist is Established at Once.

## OTHELLO WAS WELL RENDERED

First Appearance of Hannibal A. Williams at the Y. M. C. A. Unique and Effective Work.

A rare treat was the recital given by Hannibal A. Williams at the Y. M. C. A. last evening. The audience reveled in the exquisite interpretation of Shakespeare's sublime tragedy, "Othello, the Moor." It would be difficult to imagine the powers of portrayal possessed by Mr. Williams. From the deep-sounding voice of the Moor he rang the changes through all the characters up to the sweet modulated tones of Desdemona. The various emotions, from the serpentine trickery and knavery of Iago to the womanly tenderness of Desdemona, were clearly brought out.

Mr. Williams opened the recital with a brief summary of the tragedy for an introduction. Then as he brought in the different characters he informed the audience as to their identity. This was only necessary the one time, as afterwards the vocal change was sufficient to make known the person speaking.

The scenes where Othello relates the means he used to win Desdemona's love, and where he comes to his tragic end were perhaps the best of the evening. Of all the characters assumed that of Othello stood out for its forcible interpretation. The only criticism in regard to any of them was that the crafty cruelty of Iago was hardly fully portrayed.

The facial expression and the ease with which nearly the whole of the five-act tragedy was given without any outside aid was marveled at.

The attendance was large despite counter attractions. The audience thoroughly appreciated the entertainment and all had only words of praise for it.

Tuesday evening—A Midsummer Night's Dream.

## The Congressman.

Congressman Mondell and wife and a few friends had the pleasure yesterday of a visit to Ewa plantation under the guidance of Joseph B. Atherton, president of the corporation. W. W. Goodale, manager of Waialua plantation, was also of the party, which was received most pleasantly by Mr. Renton, manager of Ewa. A hurried, though thorough inspection of the mill was made, and all were deeply interested in watching the reduction of cane to the sparkling crystals turned from the Ewa centrifugals. On leaving the mill there was a brief trip over some of the extensive fields.

In the afternoon Mr. and Mrs. Mondell were for a time the guests of President and Mrs. Dole at the Executive mansion on Emma street.

In the evening the Congressman and his wife met a small company of leading people at a dinner given by Mr. and Mrs. A. W. Pearson, at the Punahou home of the hosts.

## Water on Lanai.

Lahaina, May 31.  
Mr. William Henning, sugar boiler at the Pioneer Mill Company, has accepted and will take charge of the boiling house at Spreckelsville about October 1st.

George Hons, the Waialua attorney, and Mr. Carley, manager of the Maui telephone system, were over on a business trip Monday, 29th.

Mr. Weels, in charge of the well-boring plant on Lanai, sent the news by whaleboat to Mr. Hayselden, at Lahaina, that at a depth of eighty feet he went through twenty-seven inches of water-bearing strata, and had struck a magnificent flow of pure water; not the slightest sign of brackishness about it. After a severe test with the pump, Mr. Weels gave it as his opinion that it would supply 2,000,000 gallons per twenty-four hours.

## The Orpheum.

The Orpheum presents an entire change of bill tonight. The first number, to put the crowd in good humor, will be Jim Post's comedy, "Duffey's Daughter Kate." One of the features of the evening's entertainment will be the appearance of the Hawaiian nightingales, Annie and Minnie Kanohe, in native costumes. Another new face will be Harvey Darling, late of M. B. Curtis' minstrel company, in buck and wing dancing. Glorine, the dazzling, will introduce her latest novelty, "The Mirror Dance." All the other artists also change their specialties. The bill is a strong one and will be greeted by a packed house.

## Sewerage Construction bids.

At the Cabinet meeting yesterday contracts were awarded for the construction of the city's sewerage system. The contract for the outfall part of the work, or the section between the pumping station and the sea, goes to Wilson & Whitehouse, for \$29,500. Vincent & Belcher get the city work for \$69,929.56. As the total appropriation is \$257,000, there is left \$157,570.50 for the purchase of material.

An amendment to rules of the auditor's department was adopted.

Applications from the California Feed Company and from A. F. Cooke for a lease of the old custom house building between Queen and Nuuanu streets, was referred to the survey department.

## Un-supported Rumor.

A rumor of the death of ex-Queen Liliuokalani was brought by the Miowera yesterday. The report states that Liliuokalani had left Washington for New York, where she was to have an operation for cancer performed. The press dispatch from Washington stating that she was dead was received, it was said, just before the Miowera's sailing. No word of any kind was received by anyone in this city. It is thought the report is unfounded or else some one would have received definite news regarding it.

## HONOLULU TO HAVE A NEW AND MAGNIFICENT CARRIAGE REPOSITORY.

Arrangements have just been consummated through C. N. Weaver, representative of Studebaker Bros. Mfg. Co., whereby Mr. G. Schuman, of Fort street, has secured the agency for the celebrated Studebaker line of vehicles, and will within a very few weeks open a large and complete carriage sales house, where will be carried in stock the finest line of vehicles of all descriptions ever placed before the citizens of Honolulu.

The Studebaker line of goods is too well known throughout the Hawaiian Islands to need a great deal of comment. This name of Studebaker in itself standing for quality and good value. The stock carried by Mr. Schuman will consist of everything on wheels, so that any customer, however fastidious and exacting, can be supplied. Prices on all work will be as low as those charged on the coast, so there will be no necessity for leaving Honolulu to secure fine vehicles.
